***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group **I**, claim(s) **1-20 and 28**, drawn to an aqueous acidic solution.

Group **II**, claim(s) **24-26**, drawn to a method of electrolytically depositing copper coatings on metal or plastic surfaces.

Group **III**, claim(s) **27**, drawn to a printed circuit board.

The inventions listed as Groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

(i) The aqueous acidic solution claimed in Group I is not necessarily a copper containing solution that would electrolytically deposit copper as claimed in the method of Group II; and

(ii) The printed circuit board recited in Group III is not structurally defined by the aqueous acidic solution claimed in Group I and the step of electrolytically depositing claimed in Group II.

Applicant is advised that the reply to this requirement to be complete must

include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
